

EDUCATION

Indiana University, Kelley School of Business— Bloomington, IN

Master of Science in Information Systems (MSIS)

December 2026

Indiana University, Kelley School of Business— Bloomington, IN

Bachelor of Science in Business; Majors: Information Systems, Business Analytics

May 2025

Overall GPA: 3.60/4.00

Academic Accolades:

- Research Paper: Applied transaction cost economics framework to evaluate how interfirm governance structures influence strategic pivots in startups, identifying key cost and control trade-offs

EXPERIENCE

MSIS Kelley School of Business – Bloomington, IN

Research Assistant under Chair of MSIS Program

July 2025 – August 2025

- Built and deployed a prototype full-stack web app using AI-assisted tools (Anthropic, Windsurf, n8n) to reduce debugging time, optimize prompt-tuning, and deliver insights for faster, more reliable development
- Presented AI adoption recommendations, including emerging and ethical AI use, to MSIS leadership for potential integration into curriculum modules

Deloitte – Bangalore, India

Audit and Assurance Intern

June 2024 – August 2024

- Supported IPO readiness for multiple clients by assessing transition risks from IGAAP to Ind AS, conducting regulatory reviews, and providing implementation guidance on accounting treatments for M&A transactions
- Identified 20+ potential IPO candidates through market and sector analysis, delivering full audit support including financial risk assessments, process walkthroughs, and compliance testing, in collaboration with senior auditors and leadership

BDO Global LLP – Bangalore, India

Business Analytics Intern

June 2023 – August 2023

- Developed 5+ executive Power BI dashboards tracking revenue growth, expense breakdowns, and profitability trends, enabling leadership to make faster, data-driven financial decisions
- Analyzed KPIs and benchmarked client performance against industry standards, delivering targeted budgeting and cost control recommendations that improved financial stability across multiple client accounts

Cornell University – Remote

Part-time Research Assistant

August 2022 – November 2022

- Consolidated large Excel datasets from venture capital firms, resolving data inconsistencies for accurate and reliable reporting
- Evaluated multi-year VC activity to identify funding trends and sector-specific strategies, delivering insights that informed portfolio performance reviews and capital allocation recommendations

Edelweiss Financial Services Limited – Mumbai, India

Investment Research and Analysis Intern

June 2022 – August 2022

- Conducted in-depth industry research on the global ball bearings sector, analyzing market size, end-use applications, and product diversification to assess industry growth potential
- Evaluated supply chain dynamics and cost structures, benchmarking global market leaders to determine competitive positioning

Sector Investment and Research Intern

May 2021 – July 2021

- Produced investor reports on Dixon Technologies, evaluating manufacturing capacity, consumption trends, and market dynamics to identify growth drivers and investment risks
- Authored equity research on Adani Ports, analyzing operational performance of global port operators, financial trends, and industry benchmarks to assess competitive positioning and long-term value potential

LEADERSHIP

Office of International Services – Bloomington, IN

New Student Orientation Leader

August 2025 – September 2025

- Managed onboarding for 100+ freshmen through campus tours, Q&A sessions, and events, boosting engagement and transition

Kelley School of Business – Bloomington, IN

Peer Tutor, K201 & K303 (Computer in Business)

January 2023 – May 2024

- Instructed and supported 200+ students in Excel and Access, enhancing technical proficiency and improving academic performance

TECHNICAL

- Financial Modeling & Data Visualization: Advanced Excel, Regression Analysis, Time Series Forecasting, Power BI, Tableau
- Programming & Analytics: Python, R, SQL, Microsoft Access, Jira, Confluence, SAP S/4HANA, Oracle Netsuite
